

Nature and Long-lasting Development

Welcome to Adriers, at the beginning of the country foot-paths and bridle-ways « Nature and Long-lasting Development ». Make your way around the village, and you will discover the architecture, history and the environment sustained by the commune.

The circuit is 3.5 kms (2.2 miles) of relatively easy terrain.

Rules and Recommendations :

- supervision of children, particularly near the lake is essential.
- fires are not permitted.
- we rely on you to not drop litter and to use the bins provided.
- please respect your environment and the equipment.

During your walk, you will find evidence which shows the role of this small, rural community taking steps to develop a sustainable, social and economic environment.

It benefits from an original and natural environment which it wants to preserve for future generations and to make it an asset for its economic and touristic development.

For English speakers, each panel has a QR code leading to an english version.
